

# S3 Ghana MED422 likely-lecture cluster report

**Corpus:** 220 questions across 6 decks and 50 canonical MED422 lectures.

Counts use the **primary likely lecture** only. Alternates are reported separately. These are study-priority signals from this question bank—not a guarantee of future exam weighting.

## How to use this report

1. Prioritize lectures that recur across several mock-exam decks; this is a stronger signal than a large cluster confined to one paper.
2. Use the mock-exam ranking for exam focus. Use the all-bank ranking to plan broad revision, because the Obstetrics/Gynecology review decks intentionally cluster by subject.
3. Open the app's **Likely lecture** flag on any question for its rationale, confidence, and genuine alternate overlap.
4. Treat zero-count lectures as absent from this bank, not automatically unimportant to the official course.

## Corpus and mapping quality

| Category   | Deck           | Questions  | Strong     | Likely    | Possible |
|------------|----------------|------------|------------|-----------|----------|
| Reviews    | Obstetrics     | 35         | 30         | 4         | 1        |
| Reviews    | Gynecology     | 49         | 43         | 6         | 0        |
| Mock Exams | Final 1        | 55         | 51         | 2         | 2        |
| Mock Exams | Final 2        | 48         | 45         | 3         | 0        |
| Mock Exams | Exam 1         | 16         | 15         | 1         | 0        |
| Mock Exams | Exam 2         | 17         | 16         | 1         | 0        |
| <b>All</b> | <b>6 decks</b> | <b>220</b> | <b>200</b> | <b>17</b> | <b>3</b> |

Alternates were used for **55/220** questions where content genuinely crosses lecture boundaries.

## What changed since the previous 139-question pass

The repository added **81 questions**: Final 2 (48), Exam 1 (16), and Exam 2 (17). The previous Obstetrics, Gynecology, and Final 1 set remains 139 questions.

New-question mapping confidence: **76 strong, 5 likely, 0 possible**.

| Rank | Lecture                                                  | Final 2 | Exam 1 | Exam 2 | New total | New share |
|------|----------------------------------------------------------|---------|--------|--------|-----------|-----------|
| 1    | T1.L4 — Preconceptional counselling and antenatal care   | 2       | 0      | 1      | 3         | 3.7%      |
| 2    | T1.L7 — Polycystic ovary syndrome                        | 2       | 1      | 0      | 3         | 3.7%      |
| 3    | T2.L2 — Menopause                                        | 2       | 0      | 1      | 3         | 3.7%      |
| 4    | T2.L8 — Disorders of fetal growth                        | 1       | 1      | 1      | 3         | 3.7%      |
| 5    | T2.L13 — Fetal malposition & malpresentations            | 2       | 0      | 1      | 3         | 3.7%      |
| 6    | T1.L1 — The menstrual cycle & reproductive endocrinology | 1       | 1      | 0      | 2         | 2.5%      |
| 7    | T1.L2 — Fetus, placenta, membranes and amniotic fluid    | 1       | 1      | 0      | 2         | 2.5%      |
| 8    | T1.L3 — Sexual development & Puberty                     | 1       | 1      | 0      | 2         | 2.5%      |
| 9    | T1.L5 — Prenatal screening and diagnosis                 | 1       | 1      | 0      | 2         | 2.5%      |
| 10   | T1.L6 — Amenorrhea-dysmenorrhea-PMS                      | 1       | 1      | 0      | 2         | 2.5%      |
| 11   | T1.L8 — Bleeding in early pregnancy                      | 1       | 1      | 0      | 2         | 2.5%      |
| 12   | T1.L9 — Antepartum hemorrhage                            | 1       | 1      | 0      | 2         | 2.5%      |
| 13   | T1.L10 — Multifetal gestation                            | 1       | 1      | 0      | 2         | 2.5%      |
| 14   | T1.L11 — Hyperemesis gravidarum                          | 1       | 1      | 0      | 2         | 2.5%      |
| 15   | T1.L13 — Hypertension in pregnancy                       | 1       | 1      | 0      | 2         | 2.5%      |

### Lectures newly surfaced by the added decks

- T2.L8 — Disorders of fetal growth: 3 new primary matches
- T1.L11 — Hyperemesis gravidarum: 2 new primary matches
- T2.L3 — RH isoimmunization: 2 new primary matches
- T2.L4 — Benign lesions of uterus & Cervix: 2 new primary matches
- T2.L16 — Urinary incontinence: 2 new primary matches
- T3.L2 — Gynecological problems in childhood & adolescence: 2 new primary matches
- T3.L3 — Anesthesia and analgesia in labour: 1 new primary match
- T3.L12 — Postnatal care and puerperal sepsis: 1 new primary match
- T3.L13 — Atrophic & dystrophic conditions of the vulva: 1 new primary match
- T3.L16 — Maternal collapse and its management (case-based): 1 new primary match

## Mock-exam focus — strongest priority signal

This section isolates **136 questions** from Final 1, Final 2, Exam 1, and Exam 2.

| Rank | Lecture                                                  | Mock questions | Share | Mock decks represented | Alternate mentions |
|------|----------------------------------------------------------|----------------|-------|------------------------|--------------------|
| 1    | T1.L5 — Prenatal screening and diagnosis                 | 6              | 4.4%  | 3/4                    | 0                  |
| 2    | T1.L7 — Polycystic ovary syndrome                        | 6              | 4.4%  | 3/4                    | 1                  |
| 3    | T1.L13 — Hypertension in pregnancy                       | 6              | 4.4%  | 3/4                    | 1                  |
| 4    | T1.L1 — The menstrual cycle & reproductive endocrinology | 5              | 3.7%  | 3/4                    | 0                  |
| 5    | T1.L4 — Preconceptional counselling and antenatal care   | 5              | 3.7%  | 3/4                    | 2                  |
| 6    | T1.L6 — Amenorrhea-dysmenorrhea-PMS                      | 5              | 3.7%  | 3/4                    | 5                  |
| 7    | T1.L8 — Bleeding in early pregnancy                      | 5              | 3.7%  | 3/4                    | 0                  |
| 8    | T1.L16 — Medical Diseases & Pregnancy 3                  | 5              | 3.7%  | 3/4                    | 0                  |
| 9    | T2.L11 — Benign diseases of the ovary                    | 5              | 3.7%  | 3/4                    | 1                  |
| 10   | T2.L12 — Endometriosis and adenomyosis                   | 5              | 3.7%  | 3/4                    | 0                  |
| 11   | T1.L2 — Fetus, placenta, membranes and amniotic fluid    | 4              | 2.9%  | 3/4                    | 3                  |
| 12   | T1.L3 — Sexual development & Puberty                     | 4              | 2.9%  | 3/4                    | 5                  |
| 13   | T1.L10 — Multifetal gestation                            | 4              | 2.9%  | 3/4                    | 0                  |
| 14   | T1.L14 — Medical Diseases & Pregnancy 1                  | 4              | 2.9%  | 3/4                    | 1                  |
| 15   | T1.L15 — Medical Diseases & Pregnancy 2                  | 4              | 2.9%  | 2/4                    | 0                  |

## Cross-paper recurrence

Lectures below appear as a primary match in at least two different mock-exam decks.

| Lecture                                                  | Final 1 | Final 2 | Exam 1 | Exam 2 | Mock total | Breadth |
|----------------------------------------------------------|---------|---------|--------|--------|------------|---------|
| T1.L5 — Prenatal screening and diagnosis                 | 4       | 1       | 1      | 0      | 6          | 3/4     |
| T1.L7 — Polycystic ovary syndrome                        | 3       | 2       | 1      | 0      | 6          | 3/4     |
| T1.L13 — Hypertension in pregnancy                       | 4       | 1       | 1      | 0      | 6          | 3/4     |
| T1.L1 — The menstrual cycle & reproductive endocrinology | 3       | 1       | 1      | 0      | 5          | 3/4     |
| T1.L4 — Preconceptional counselling and antenatal care   | 2       | 2       | 0      | 1      | 5          | 3/4     |
| T1.L6 — Amenorrhea-dysmenorrhea-PMS                      | 3       | 1       | 1      | 0      | 5          | 3/4     |
| T1.L8 — Bleeding in early pregnancy                      | 3       | 1       | 1      | 0      | 5          | 3/4     |

| Lecture                                                   | Final 1 | Final 2 | Exam 1 | Exam 2 | Mock total | Breadth |

### Obstetrics — 35 questions

| Lecture                                                  | Questions | Deck share |
|----------------------------------------------------------|-----------|------------|
| T1.L13 — Hypertension in pregnancy                       | 6         | 17.1%      |
| T3.L4 — Postmaturity and induction of labor              | 5         | 14.3%      |
| T2.L13 — Fetal malposition & malpresentations            | 4         | 11.4%      |
| T3.L17 — PPH & other Obstetric emergencies (case-based)  | 4         | 11.4%      |
| T3.L10 — Abnormal labour and its management (case-based) | 3         | 8.6%       |
| T1.L2 — Fetus, placenta, membranes and amniotic fluid    | 2         | 5.7%       |
| T1.L4 — Preconceptional counselling and antenatal care   | 2         | 5.7%       |
| T1.L9 — Antepartum hemorrhage                            | 2         | 5.7%       |

### Gynecology — 49 questions

| Lecture                                                  | Questions | Deck share |
|----------------------------------------------------------|-----------|------------|
| T1.L3 — Sexual development & Puberty                     | 10        | 20.4%      |
| T3.L15 — Malignant ovarian tumors                        | 8         | 16.3%      |
| T3.L1 — Subfertility                                     | 4         | 8.2%       |
| T3.L7 — Cervical cancer & screening                      | 4         | 8.2%       |
| T1.L7 — Polycystic ovary syndrome                        | 3         | 6.1%       |
| T2.L12 — Endometriosis and adenomyosis                   | 3         | 6.1%       |
| T3.L6 — Contraception                                    | 3         | 6.1%       |
| T1.L1 — The menstrual cycle & reproductive endocrinology | 2         | 4.1%       |

### Final 1 — 55 questions

| Lecture                                                  | Questions | Deck share |
|----------------------------------------------------------|-----------|------------|
| T1.L5 — Prenatal screening and diagnosis                 | 4         | 7.3%       |
| T1.L13 — Hypertension in pregnancy                       | 4         | 7.3%       |
| T1.L1 — The menstrual cycle & reproductive endocrinology | 3         | 5.5%       |

| Lecture                                 | Questions | Deck share |
|-----------------------------------------|-----------|------------|
| T1.L6 — Amenorrhea-dysmenorrhea-PMS     | 3         | 5.5%       |
| T1.L7 — Polycystic ovary syndrome       | 3         | 5.5%       |
| T1.L8 — Bleeding in early pregnancy     | 3         | 5.5%       |
| T1.L15 — Medical Diseases & Pregnancy 2 | 3         | 5.5%       |
| T1.L16 — Medical Diseases & Pregnancy 3 | 3         | 5.5%       |

## Final 2 — 48 questions

| Lecture                                                   | Questions | Deck share |
|-----------------------------------------------------------|-----------|------------|
| T1.L4 — Preconceptional counselling and antenatal care    | 2         | 4.2%       |
| T1.L7 — Polycystic ovary syndrome                         | 2         | 4.2%       |
| T2.L2 — Menopause                                         | 2         | 4.2%       |
| T2.L13 — Fetal malposition & malpresentations             | 2         | 4.2%       |
| T3.L2 — Gynecological problems in childhood & adolescence | 2         | 4.2%       |
| T1.L1 — The menstrual cycle & reproductive endocrinology  | 1         | 2.1%       |
| T1.L2 — Fetus, placenta, membranes and amniotic fluid     | 1         | 2.1%       |
| T1.L3 — Sexual development & Puberty                      | 1         | 2.1%       |

## Exam 1 — 16 questions

| Lecture                                                  | Questions | Deck share |
|----------------------------------------------------------|-----------|------------|
| T1.L1 — The menstrual cycle & reproductive endocrinology | 1         | 6.3%       |
| T1.L2 — Fetus, placenta, membranes and amniotic fluid    | 1         | 6.3%       |
| T1.L3 — Sexual development & Puberty                     | 1         | 6.3%       |
| T1.L5 — Prenatal screening and diagnosis                 | 1         | 6.3%       |
| T1.L6 — Amenorrhea-dysmenorrhea-PMS                      | 1         | 6.3%       |
| T1.L7 — Polycystic ovary syndrome                        | 1         | 6.3%       |
| T1.L8 — Bleeding in early pregnancy                      | 1         | 6.3%       |
| T1.L9 — Antepartum hemorrhage                            | 1         | 6.3%       |

## Exam 2 — 17 questions

| Lecture                                                   | Questions | Deck share |
|-----------------------------------------------------------|-----------|------------|
| T1.L4 — Preconceptional counselling and antenatal care    | 1         | 5.9%       |
| T2.L1 — Infections & vaccinations in pregnancy            | 1         | 5.9%       |
| T2.L2 — Menopause                                         | 1         | 5.9%       |
| T2.L3 — RH isoimmunization                                | 1         | 5.9%       |
| T2.L4 — Benign lesions of uterus & Cervix                 | 1         | 5.9%       |
| T2.L5 — Anatomy of the pelvis & mechanism of normal labor | 1         | 5.9%       |
| T2.L6 — Infections of the genital tract                   | 1         | 5.9%       |
| T2.L7 — Management of normal labour                       | 1         | 5.9%       |

## Complete lecture-by-deck matrix

Sorted by mock-exam primary count, then all-bank count. A zero means no question had that lecture as its primary match.

## Coverage gaps and cautions

- **3/50 lectures** have no primary match in the four mock-exam decks.
- **2/50 lectures** have no primary match anywhere in the six-deck corpus.
- Mapping confidence: **200 strong, 17 likely, 3 possible**.
- Mock-only confidence: **127 strong, 7 likely, 2 possible**.
- **Source-answer provenance:** 57 answers are flagged inferred in the repository (Gynecology 1, Final 1 55, Final 2 1). This concerns the answer key's provenance, not lecture-match confidence.
- **Final 2 Q41:** the original item capture was truncated; its options/key were reconstructed. The Endometriosis lecture independently supports the mapped Sampson-theory answer.
- Frequency measures what this collected bank repeated. It does not replace the official lecture roster, announced scope, or marked/highlighted lecturer priorities.

## No primary match in mock exams

- T2.L9 — Role of Ultrasound in obstetric (6 alternate mentions)
- T3.L1 — Subfertility (4 alternate mentions)
- T3.L8 — Communication skills and breaking bad news (case-based)

## No primary match anywhere

- T2.L9 — Role of Ultrasound in obstetric (6 alternate mentions)
- T3.L8 — Communication skills and breaking bad news (case-based)

## Detailed evidence

- `question-to-lecture-map.md` — every question, primary/alternate lecture, confidence, and rationale.
- `question-to-lecture-map.csv` — spreadsheet-ready version including full question text.
- `lecture-focus-data.json` — machine-readable counts for future updates.
